NORTON'S TELEGRAPHIC ROOMS,
The Olmstead Patent Magnetic Machine, for MEDICAL
purposes, is so entirely different from any other medical instruments, that no person can form a proper idea of its advantages without witnessing its operations, when they will
be found so apparent as to render argument superfluous.
The current of electricity is completely under the control of
the operator, and can, from almost imperceptibility, be gradually increased to any strength the patient may desire,
while, instead of feeling the painful spasmodic contraction
of the muscles produced by all other medical instruments, a
gentle current is flowing pleasantly through the nervous system. Telegraph Companies are respectfully informed that
every description of Magnetic and Chemical Telegraph
apparatus is kept constantly on sale at
NORTON'S TELEGRAPHIC ROOMS.

SEWING MACHINES—CAUTION.—
The subscribers, owners of the ROTARY SHUTTLE
MACHINE, patented Oct. 1894, hereby Caution the Pablic
against purchasing or using Machines which infrings upon
their patent, as they will prosecute to the extent of the law
all such infring ments.

Our machines are now offered for sale for the first time.
They have been in use in this city for one year. One firm
has made lein thousand dozen Cloth and Plink Caps. Several other companies have employed them very profitably
in making clothing, carpet and grain bags, and for other
hurseas. There are a number now in use at the factory of
H. W. Batha & Co. Elm. corner of Canal-st where those
wishing to purchase are a number now in use at the factory of
H. W. Batha & Co. Elm. corner of Canal-st where those
wishing to purchase are a subject to eat and see them is operation. Messrs. H. W. B. & Co. are anthorised to make
sales of Rigits or Machines for use in this city.

These machines are so easily managed, that a child of 14
years of age has kept seven machines (which are propelled
by steam and employed in making bags) in good order for
some months past, attending at the same tims to the running of her own machine and doing with it the work of four
adults if sewing by hand.

These machines can be driven by hand, treddle, or
steam power. To persona wishing to make an experimentsefore buying, a machine would be rented at a moderate price.

We confidently assert that these are the only machines of
feel practical utility, and while we invite an examination of
the machines now in operation, we repeat our cantion
against infringments, which will certainly be prosecuted.
